Lecture Course Given up.  
Since the announcement of the pro-  
posed lecture course, new and grave  
difficulties have arisen. Originally  
planned for five entertainments, one was  
obliged to be abandoned as no satisfac-  
tory arrangements could be made.  
Another and one of the best of which the  
proposed series had no date on which the  
opera House could be secured, yet  
another could be had for only one date,  
and that was Nov. 8. The committee  
were not ready to play a seow Sunday  
evening in Norway.  
This left only two with which any ar-  
rangements could be made. One of those  
could be only a Saturday matinee, and  
after a thorough discussion of the mat-  
ter Monday evening, it was decided to  
drop the course.

Laughter  
Is the thing most desired by the dramatic  
author as the resultant effect of a  
presentation of his work to an audience.  
Especially is this true in plays of the  
comedy type, such as "Other People's  
Money" which will be here next Friday  
evening at the Norway Opera House, for  
laughter is the one thing desired by the  
player and exploiter alike as marks that  
both have succeeded. In all plays the  
mirth-provoking qualities of the scenes are  
carefully scrutinized, for comedy is the  
backbone of the structure, and how well  
can only be judged by the number of  
laughs it engenders. For the present  
season, James R. Waite has taken "Other  
People's Money," because it has amply  
demonstrated that it is a pleasing and  
popular play—one of the kind that wears  
well with the public. It has a capital  
story, and Mr. Waite has surrounded  
himself with an excellent company.

# THE NORWAY ADVERTISER

(OXFORD COUNTY, ME.)

OCTOBER 9, 1903, NORWAY AND SOUTH PARIS, MAINE.

Mothers' Meeting.  
The first meeting of the season was  
held at the home of Mrs. M. P. Stiles,  
Wednesday, Sept. 20. The meeting was  
opened with scripture reading and  
prayer followed by reports of secretary  
and treasurer. Many of us were glad  
to know that we have quite a little money  
to start in with.  
The officers for the coming season  
were then elected:  
Pres.—Mrs. Cotton.  
V. Pres.—Mrs. Bicknell.  
Sec.—Mrs. Stiles.  
Treas.—Mrs. Barker.  
As soon as this was done it was sug-  
gested that we have a baby show in the  
near future. Interest was aroused at  
once, and one not being able to wait for  
another all began talking together.  
Order finally came out of chaos, sug-  
gestions were made, committees chosen  
and the result is that the towns of Nor-  
way and Paris are to have a Baby show  
at Concert Hall, Wednesday, Oct. 14, in  
the afternoon from 2.30 until 5 o'clock.  
Ways and means were discussed. We  
want to give each baby under three years  
old a souvenir. We want everybody to  
come and unless you can bring a baby  
you will have to pay ten cents. There  
are many bright, pretty babies in this  
vicinity, and won't it be fun to see them  
all together? All are most cordially in-  
vited. Come and bring the baby.  
Refreshments will be served.  
A short entertainment will be given by  
children under charge of Mrs. Dr. Bart-  
lett.  
We hope to make the Baby show a  
pleasant as well as a profitable time.  
These little folks are the future men and  
women. Wherever they go and where-  
ever they grow their influence will be  
felt for good or evil.  
During the afternoon we had the pleas-  
ure of meeting Ruth Hemmingsway, who  
came in with her mother. She has but  
recently come to Norway and we extend  
to her our cordial greetings.  
The subject of the Cradle Roll was  
brought before the meeting and will be  
presented at the Baby show by Mrs. C.  
P. Barnes.  
The petition against having Read  
Smoot in the Senate was presented by  
Mrs. Tubbs and signed for the club by  
the president.  
Now all get ready for the Baby show  
and help make it a success.

Disappeared in the Woods.  
Wednesday afternoon, about 5 o'clock,  
Charles Fogz, living in the upper part  
of the town, became mentally deranged  
and after creating considerable distur-  
bance at the house, took to the woods.  
At present he has not been found,  
though a large number of friends and  
neighbors looked for him Wednesday  
evening and to-day.  
He was found Thursday forenoon and  
was able to walk home. He went to bed  
and under the good care he is receiving  
will undoubtedly be all right again.

"Other People's Money"  
Comes to Norway Opera House next  
Friday evening, Oct. 9th, and will give  
us an evening wholly given up to that  
light and breezy sort of entertainment  
such as this, with a self-sufficient plot-  
ting, scheming old father—the central  
figure—the undoing of whom is the  
theme upon which the author has con-  
structed one of the most enjoyable and  
yet thoroughly plausible plays of the last  
decade. It is a comedy with a story,  
and with a story, the telling of which  
is accentuated by the heartiest of laugh-  
ter. James R. Waite will be seen in its  
principal roles, assisted by a number of  
clever comedy people.  
Mr. Waite played the title role in  
"Uncle Terry" here a year ago.

Fred Gordon from Bethel is at work  
in the shoeshop.  
Mrs. J. M. French is spending the  
week at Old Orchard.

at his father's, D. E. Fuller's, this week.

will preach next Sunday a. m. at the M.  
E. church.

The geology class of Norway high  
school, sixteen in number under the  
charge of Prof. Hathaway went to Mount  
Mica Wednesday.  
Mrs. Ernest C. Tarr and children re-  
turned last Saturday from Nova Scotia,  
where they spent the summer at their  
former home in Lower Granville, near An-  
napolis.  
N. Z. Hall, Boston & Maine conductor,  
and Alice G. St. Clair spent Sunday with  
J. H. Porter at his cottage up lake.  
Mr. Hatch from Boston spent Sunday  
Tuesday, representing the Sun In-  
surance Company in adjusting the in-  
surance on C. N. Tubbs' recently burned  
building.  
The class of '04, N. H. S., gave a soci-  
able in Concert Hall, Wednesday evening,  
at which the senior class of Paris high  
were guests. An order of ten games  
were played and a most pleasant evening  
passed.

Freeland Howe was in Boston on a  
business trip, Thursday, Friday and Sat-  
urday last week, and witnessed some of  
the spectacular exercises of the recep-  
tion tendered by the Boston Ancient and  
Honorable Artillery company to the  
London Ancients.  
Alphonso Charles has bought of Ernest  
Nason the stage route between here and  
North Lovell. Mr. Nason has operated  
it a little over two years, Mr. Charles  
is driving for him. The latter is a  
most accommodating and conse-  
quently popular driver over on the line.  
A. H. Witham, the ADVERTISER Den-  
mark correspondent, made a call at the  
office Thursday morning on his way  
home. He has been on a visit to Al-  
bany, Mason, Bethel and Newry, returning  
home through Paris and Norway. While  
there he was a guest of Mrs. Rowena  
Swan.

A. J. Hilborn, esq., president of the  
Raymond Syndicate of Boston, and Judge  
S. J. Hilborn of Palatka, Fla., are visit-  
ing in this vicinity. A. J. Hilborn was  
born at East Oxford some 78 years ago  
and called on Geo. O. Robinson of Cam-  
bridge, Mass., a schoolmate of his and  
who is stopping at his summer home at  
East Oxford. Judge Hilborn was never  
farther east than Washington until this  
visit when he came to Boston to attend  
the annual and Honorable reception  
from across the water.

New England Sabbath  
Protective League.  
Last Sunday evening, an exceedingly  
interesting and important service was  
held at the Congregational church in in-  
terest of the New England Sabbath Pro-  
tective League. Rev. Martin D. Kne-  
eland, D. D., of Boston, traveling secretary  
of the League, gave the address.  
His plea for a better observance of the  
Lord's Day was an able and strong one.  
The commandment to observe one day  
in seven, said the speaker, found place  
among the great teachings of man be-  
cause the necessity is found in the  
physical constitution and in the moral  
and spiritual need of man. The body of  
man needs food and as such the whole  
man needs a Sabbath of rest.  
The reasonableness of the Christian's  
Sabbath is substantiated first by the  
teachings of the Word of God; second,  
by the researches and the teachings of  
science; third, its necessity is  
enforced by all history; fourth, all  
lines of industry prosper far better by  
observing one day in the week as a day  
of rest. More and better work can be  
done both by man and beast in the long  
run by working only six days in the  
week. This has been proven beyond all  
doubt.  
The cold-blooded greed of gain on  
part of some men and corporations was  
strongly set forth by the speaker, show-  
ing how many men are forced to work  
seven days in the week with little oppor-  
tunity to even become acquainted with  
their own children.  
In a powerful and convincing manner  
he spoke of the moral effect upon the  
community of observing the Sabbath in  
a proper manner. He also spoke of the  
beneficial effect upon the home-life and  
upon the children and youth of a proper  
observance of the Christian Sabbath.  
The pastors of all the churches added  
a few words, and a collection was taken  
for the cause. In addition, the under-  
signed desires to give the thoughtful  
people this word of Senator George F.  
Hoar of Massachusetts. He says on the  
subject: "The Sabbath was made for  
man, and not man for the Sabbath. I  
put it solely on the ground of the advan-  
tage, of the necessity to you and to me.  
I believe we best maintain the country  
we love and the State of which we are  
part, and of whose government we have  
a constant attendance on the public and  
social worship of God. I believe it to  
be to the interest of the country, of the  
town, and of the individual soul that the  
habit be not abandoned."  
This was also Gladstone's position in  
regard to the Sabbath and its observance.  
This has been the feeling and senti-  
ment of nearly all our ablest and most  
far-seeing statesmen.  
A better observance of the Christian  
Sabbath always leads to a better moral  
condition of the community.  
B. S. RIDDOUT.

Wednesday, one of our friendly neigh-  
bors brought in three specimens of 1902  
golden russets. They were wrinkled  
and somewhat soft, but tasted very well.  
"I want to show you a bouquet," said  
Dennis Pike, coming into the ADVER-  
TISER office, Wednesday, about five  
o'clock. "Isn't it handsome?" It was.  
The bouquet was a large bunch of cultivated  
strawberries, blossoms, green and ripe  
fruit on the stems, and some of the lat-  
ter were five inches in circumference.  
There must have been fifty berries all  
told of the Nickowmer variety.

BETHEL.  
Wedding Reception.  
Edward A. Taylor and bride held a re-  
ception at the home of Mrs. Cordelia  
Taylor in Greenwood on the evening of  
Sept. 19, the date of their marriage.  
A goodly number of friends were present  
to greet the happy couple, leaving many  
tokens of esteem in a substantial form.  
To the enlivening tones of the violin  
tripped the light fantastic too, till late  
hour, when refreshments were served  
and all returned to their homes wishing  
Mr. and Mrs. Taylor many recurring  
days of happiness through life.

At her request the doctor fitted up a pleasant cottage on the shore of Lovewell's pond early in the summer, where she spent the last few weeks of her life.

During all her years of suffering she was never heard to complain but accepted her lot with that Christian fortitude and resignation which have ever characterized her life. Her sunny and affectionate disposition, genial ways and high moral character have endeared her to a large circle of friends, who will long mourn her loss.

There were prayers at the cottage, Tuesday morning. In the afternoon the remains were taken to Milton, where the funeral services were held at 1.30 p. m. Wednesday. Thus has gone out from among us another bright light.

Thus with his splendid tailor-made The tailor made a tailor maid.

Captured a Bear.

Another black beauty walked into captivity on Bear river one day this week while Walter Vale was digging potatoes in the field. He had taken his gun out, thinking after he finished work at night he would go into the woods and see what there was to be had, but alas it was not necessary to go far, as the bear came walking slowly along, apparently investigating Mr. Vale's potato patch. ## Letter to Alvin Brown.

NORWAY, ME.

Dear Sir: We suspect you'd like the tale, how a woman beat two hardware dealers in Gtard, Pa.

We tried our best to get those men to sell Devoe lead and zinc in that bright town, and failed. Recently took Mrs. E. R. Bowman, druggist.

They said they couldn't sell paint for more than \$1.25 a gallon. Mrs. Bowman can. She has sold about all the paint that has been sold there since.

She knew Devoe; had sold our artists' materials. Had some sense and force, besides; she easily learned that cheap is dear in paint, and told the people.

Mr. Burt Young bought a gallon Devoe for rooms that had always taken a gallon; had half left.

Mr. E. H. Hiler, jeweler, painted Devoe, and says it goes further—no particulars.

Mr. John Hanna, grocer, thought it expensive before he bought it; brought back nearly half of his paint, and said it was the cheapest job he ever had.

Mrs. Bowman reports universal satisfaction. So much for a cheap-paint town with a bright woman in it.

Yours truly,  
F. W. Devoe & Co.,  
New York.

P. S. F. P. Stone sells our paint.

Cow Wounded.

Herbert I. Holt recently had a cow come up from his pasture with his other cattle, with a gash on the right side of her nose about five or six inches, and another on the upper part of her right leg. These wounds were about one-half inch deep and had the appearance of having been made by a heavy rifle bullet. Rifle-men should be careful where they send their lead.

## Best in its History.

The North Waterford Fair, which was held Friday and Saturday last week, like all the other fairs so far this season, was favored with the best of weather. Just cool enough to give one comfort, no dust, and yet no mud, coming to the fair was a pleasure enjoyed by everyone. The common which is used for the display was packed with people both days, although the second day was much ahead of the first in attendance.

Several estimates put the number present at a couple thousands. No tickets being sold, it is impossible to tell exactly. Teams came from all directions and horses were hitched in all available places in and near the village. There were at least five hundred teams around. And the people. They renewed old and made new acquaintances, they bought lemonade, soft beer, popcorn, peanuts and fruit. They gathered around the pulling horses and cattle. They critically examined the cattle and other exhibits. They spent several hours seeing all the sights and, then went home. An effort was made this year to put the fair on a business basis, as a legitimate cattle show. There were larger and better exhibits in horse and stock department than ever, and it seems to promise that this fair will be greater and better each year. Certainly this is the best ever held.

The Congregational church served dinner at the vestry Friday and Saturday. They had a rush the latter day, and though for two hours there was no let-up in the crowd, it was handled easily and there was enough and to spare. They must have fed close to a thousand people.

A dance was held both days at Odd Fellows' hall, and came near being a continuous performance. There was a large attendance, more than could be comfortably on the floor. The orchestra was a cornet, violin, bass viol and piano.

Practically no drunkenness or disorder was noticed on the grounds either day, and there was no evidence of liquor selling.

Both evenings it was reported that there was some disturbance and disorder. A ball game was played in J. D. Hor's field Saturday afternoon between a team representing Waterford and the East Bethels. The former won, 15 to 9.

## On the Midway.

The great and interesting feature of the show is the midway. It was here a crowd stayed constantly and the air was full of the noise and tumult of a host of people. Nearly every trader had a good run of patronage and was happy.

Dr. R. Drew of Portland had a table with electric magnetic belts.

The old familiar merry-go-round was well surrounded all day, and the chug, chug of the engine, the starter's whistle and the organ's music seemed like a sound from home. Archie T. Heath, the veteran, had the concession this year, and kept things moving.

On an improvised counter in front of his store W. S. Perkins sold grapes.

A stand with yards for sale was presided over by a woman who declined to give her name.

J. A. Wheeler of Houlton operated the cafe, selling lunches.

Percy Nevers, Norway, sold ice cream, beer and the like.

Archie Grover and Leslie Cummings, Albany, fruit, candy and cigars.

John Grover, Stoneham, fruits, confectionery and drinks.

Mrs. Charles Marston, Albany, ice cream, candy and pastry.

Frank H. Beck, Norway, silver ware and souvenir jewelry.

E. W. Cordwell, Albany, frankforts, fruit and drinks.

F. E. Garland, Conway, N. H., lunches, candy, cigars, peanuts.

T. Doyle, Portland, base ball gear and striking machine.

Franklin Stevens, Bethel, wire jewelry.

W. Robinson, Fryeburg, lemonade.

S. Cohen, Portland, novelties and souvenirs.

B. W. Dyer, Norway, African Dodge, who also was a buck dancer.

G. Giabopassi, Bridgton, fruit team.

J. C. Dyer, Auburn, introducing H. H. Hay and Sons of Portland's perfumes.

J. T. Lewis, North Waterford, handkerchiefs.

J. F. Head, Conway, N. H., fruit stand.

W. B. Chute & Co., Naples, frankforts, peanuts and drinks.

Mr. Fine, New York, souvenirs.

Prof. B. Alexander, Boston, glasses.

H. Dalton, Portland, frankforts and beer.

W. E. Clark, Bethel, ball range and draw game.

George Dalton, Glen, N. H., fruit team.

R. H. Van de Veer of Boston was tin-type man. It was a very neat looking studio and there were customers most all the time. We saw a few pictures that were not too bad.

Our country fair friends of the West End Dairy, Portland, sold the pure ice cream and latest preparation, the ice cream sandwiches were all right as usual. They had just come from a successful week at Fryeburg fair.

A man named Port of Providence, R. I., was selling Eagle pencils and fountain pens.

Fred Wax, Boston, souvenirs.

Twitcheil Bros, Oxford, fruit, peanuts and ice cream.

R. T. Clough, Bethel, popcorn.

A cloth peddler sold dress goods.

A. J. Stillman, African Dodge Kentucky Rosebud.

There were side shows there which had a very limited patronage.

The Eden Musee had wax beads and figures displayed for men only.

Wichita, the wild girl, was displayed in a box. Doubtless a little soap and water would remove all the wildness.

"Have you seen George George, the ladies' man?" was thoroughly worked through an improvised megaphone. It was a sell.

C. C. Dearborn, the saw man, distributed advertising of the Atkins saws from his team.

George Devine of the Blue store, Norway, distributed advertising matter of this thoroughly reliable house.

## Noyes' Condition Powder

Is a handy thing to have in the barn, particularly at this time of year when horses and cattle need some good Appetizer and Tonic. This remedy is also used with excellent results in Coughs, Distempers and Lung Affections. It promotes a fine, glossy coat, is as good as any similar preparation on the market, and costs

ONLY 25 CENTS

for a Full Pound. Don't let the horses and cattle run down as cold weather approaches when a remedy is almost at your doors. This article is for sale at

## Oxford County Agricultural Society.

Some one in a late issue of the ADVERTISER complained that the Oxford Agricultural Society advertised three days of fair, and actually had but one, the second day being the only day that brought out a crowd. If the fair was run for the sole benefit of the farmers, this complaint would have some foundation, but it isn't.

It is a busy season with the people on the farms and the great majority of them can spare but one day without great inconvenience. The schools and shops do not want to shut down but one day, the people cannot stay on the grounds over night, so they pay for one ticket and manage to see all that is of interest to them in one day.

Does any one suppose that the people of Oxford county are sufficiently idiotic to spend three days raffling for cheap jewelry or throwing balls at a man's hat stuck through a hole in a sheet? Probably not—neither is it very interesting nor elevating to see any human being swallow snakes.

I am constrained to believe that the Oxford county fair as a general thing is well managed. Perhaps some slight improvements might be made. They are held too early for the perfection of some crops, especially corn, pumpkins, squashes, cabbages, beets, etc., also winter apples.

The prize rings where the cattle are examined are too far from the cattle pens, causing a good deal of trouble and vexation getting through the crowds and between carts and wagons.

Some exhibitors always kick at the decision of the judges, but I think in most cases justice is meted out. Once in a great while a man is appointed that doesn't know the difference between one cow and another, if both of them have hoofs and hair. But the other two on the committee are quite sure to be well qualified, so no harm is done. Judging thoroughbreds by score cards, as was practised this year, I think is the most rational method and cannot fail to give satisfaction, but this method would hardly be practicable in case of grades.

Perhaps some of the premiums are too small and others are disproportionately large.

It often happens on the second day of the fair that the stairways leading to the upper hall are crowded, some going up and others at the same time coming down, and they often come breast to breast. If it is only a dandel of 17 summers that falls into one's arms, no results therefrom, but if it is an old woman that weighs 215 pounds they are liable to bring up at the foot of the stairway.

A better way would be for all to go up on one side—at the right side for instance—and down at the left of the main entrance.

If all entries were booked before the first day of the fair, it would save much trouble and vexation.

In conclusion, I would say that the Grange exhibits were fine this year, as they usually are, showing much taste, skill and patience.

The 122 varieties of potatoes exhibited by L. R. Stone of Paris were an interesting study for lovers of this important vegetable.

An Enjoyable Dinner.

Mrs. Hiram Pulsifer lately gave a five o'clock dinner at her home on Pleasant street, South Paris, in honor of her beloved granddaughter, Nellie Cotton, the dinner being made the pleasant medium of the announcement of Dr. A. W. Doubleday of Boston engagement to Miss Cotton.

When at Tufts college Dr. Doubleday enjoyed great popularity, being elected a member of the Delta Sigma, Delta Fraternity, his freshman year; was made its Worthy Master his junior year, and was unanimously chosen its Grand Master his last year.

The doctor is the son of Deacon O. M. Doubleday of Springfield, Mass., and is a young man of true merit. Miss Cotton is the only daughter of Mr. and Mrs. A. D. Gotton of Windsor, Vt., a graduate of Emerson College and is exceedingly attractive and accomplished.

A pleasant feature of the dinner was the singing by Rev. and Mrs. A. W. Potte, which was greatly enjoyed. The grandmother was lovely in black satin and lace.

The decorations were pretty in autumn leaves and white roses with their college colors—purple, blue, white, Emerson; brown and blue, Tufts.

of the ambulance bell that is so frequently heard could be frequently obviated, remarked the Komoc man.

You see it is just this way, nine out of ten people who are overcome by fainting spells, vertigo, weakness, palpitation of the heart and many other ills that cause unconsciousness are the victims of Indigestion.

Indigestion is not always indicated by severe pains in the stomach. It is such symptoms as have been described above that indicates its presence and it is from the first warning that the stomach does not work right.

It more people would only take that greatest of Nature's remedies, Komoc, there would be less stomach disorders. Like all of Nature's remedies, Komoc acts directly on the seat of the trouble. No harm ever follows its use as is the case when remedies containing injurious drugs and alcohol are resorted to.

Komoc tones up this great life centre of the body, and what is more, it purifies the blood, strengthens the nerves and creates a healthy, normal appetite.

### THE NEW YORK WORLD

Thrice-A-Week Edition.

Read wherever the English Language is Spoken.

The Thrice-A-Week World long ago established itself in public favor, and it is now recognized as the strongest publication of its kind in the United States. Advertisers and publishers seeking clubbing combinations—and they know best—universally testify to this. It is widely circulated in every State and Territory of the Union, and even in remote South Africa and on the gold fields in the deserts of Australia. These are the things that tell.

Next year, we have the Presidential campaign, in which all Americans are deeply interested. Already the issues are being discussed and the two great parties are preparing for the first moves. You will not want to miss any details, and if you subscribe now your year's subscription will cover the campaign from beginning to end.

The Thrice-A-Week World is absolutely fair in its political news. Partisan bias is never allowed to affect its news columns, and Democrat and Republican alike can obtain in its pages truthful accounts of all the great political contests.

In addition to all the news, the Thrice-A-Week World furnishes the best serial fiction, elaborate market reports and other features of interest. The Thrice-A-Week World's regular subscription price is only \$1.00 per year, and this pays for 150 papers. We offer this unequalled newspaper and the ADVERTISER together one year for \$2.20.

**Horses and Cattle Drawing.**  
Friday afternoon, on the road below the common one class of drawing horses was pulled. There were three entries and starters: R. K. Morrill of Norway got the load 240 feet, Will Farrington of Lowell got 155 feet, while Fred Ray of Waterford hauled only 12 feet.

Saturday, the hauling opened with oxen. The first was the smaller class, under 7 feet. Ed. E. French of Albany made 6 feet 6 inches and E. S. Abbott, Norway, was second with 1 foot 2 inches. The larger class was then pulled between the old time rivals, Rufus K. Morrill of Norway and E. S. Abbott of the same town. The former won with 80 feet to his credit, while the latter got 60.

Because their oxen outclassed in the second class, E. S. Abbott and A. Hill of Lovell did not start, so a special purse of \$3.80 was made up for which they drew. Abbott won with 109 feet 7 inches hauled, and Hill's distance was 88 feet 1 inch.

There were no entries in the 2400 and under class, so after the drawing of oxen a sweepstakes class was made up with a purse of \$9. Eugene D. Millett of Norway got 112 feet 6 inches in this class. Rufus K. Morrill 110 feet 8 inches and Will Farrington 88 feet.
